RUN HOU

ATHLETES WITH DISABILITIES

ATHLETES WITH DISABILITIES
CELEBRATING 10 YEARS
WITH HOU

DID YOU KNOW?

The Chevron Houston Marathon and Aramco Houston Half Marathon hosts a substantial Athletes with Disabilities division. The Houston Marathon believes in creating opportunities for athletes of all abilities. You might be running alongside these runners or wheelers during certain parts of the race. Here are some things to keep in mind:

- ▶ Many athletes with a disability will be running with two guides. Guides will have bright yellow bibs on their back. Never try to run between a runner and their guides. You could get injured or cause injury.
- ▶ Runners that are visually impaired rely heavily on their guides to warn them of hazards. Please do not try to distract their guide or the runner by giving high fives or patting them on the back when you run by.
- ▶ Runners that wear a prosthetic leg will often swing one or both of their legs far out to the side when they stride. Please try to allow space between you and other runners to stay out of their way and prevent injury.
- ▶ Try to stay out of the way of racing wheelchairs. They go up hills very slowly but come down hills faster than most people can run. They also make very wide and slow turns.

Good rules to run by: Give athletes with disabilities and their guides plenty of space. Feel free to cheer though— everyone needs some encouragement along the way!

SAG ACCOMMODATIONS

Should you find yourself unable to complete the entire course, the Support and Gear (SAG) Team is available to assist you. SAG vans will be available to pick up any participants who need a ride back to the George R. Brown Convention Center (GRB).

- ▶ Designated pick-up points for SAG vans are located at every Medical Aid Station.
- ▶ Go to the nearest Medical Aid Station for SAG pick-up.
- ▶ SAG vans will run approximately every 15 minutes from each Medical Aid Station.
- ▶ All SAG vans and buses will have SAG Race Crew onboard to provide information on the services available to participants upon return to the GRB.
- ▶ There will be water on the vehicles, and the vehicles will be climate controlled.

Pick-up by our SAG vans is only available at Medical Aid Stations or by the final SAG van that tails the race route as streets reopen to traffic.

Participants who fall behind pace will be asked by the Houston Police Department to board the final SAG vans as roads reopen to vehicular traffic.

Based on the six hour marathon time limit, if participants have not reached the following locations by the time shown, they will be instructed by race officials to take a SAG back to the GRB.

Participants will not be allowed on the course after these times.

Mile 8 – 9:50 a.m. Marathon/Half Marathon Split

Participants behind pace will be directed to complete the half marathon course.

Mile 14 – 11:15 a.m. Post Oak Blvd. at Richmond Ave.

Participants behind pace will be directed to catch the SAG van back to the GRB.

Mile 20 – 12:35 p.m. Memorial Dr. at I-610

Participants behind pace will be directed to catch the SAG van back to the GRB.
